

# YXLON SmartSpares

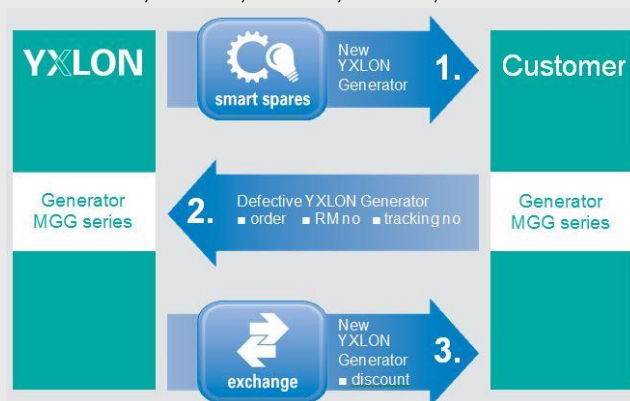

- Best compatibility for YXLON systems
- Additional functionality
- Highest system uptime
- Innovative logistics and distribution concepts with the SmartExchange program

## YXLON SmartExchange for Generators MGG series

With each new YXLON system or YXLON generator you can now benefit from our SmartSpares and can automatically participate in our SmartExchange program. The YXLON SmartExchange program offers a service especially designed to meet your requirements of high system uptimes and minimal operational costs. We offer a new unit and a direct exchange with a pricing depending on the age of the defective generator.

### System prerequisites

- YXLON generator: MGG40, MGG42, MGG43, MGG46, MGG47

### YXLON categories
